

The Bible & Mathematics

By: David A. Sargent

So what does math have to do with the Bible? Plenty: have you ever read how God is a mathematician? Look in Genesis 1:4, “And God saw the light, that it was good: and God divided the light from the darkness.” God divided! Look in Acts 2:47, “Praising God, and having favour with all the people. And the Lord added to the church daily such as should be saved.” The Lord added! So here we see that God divides and adds and now look in 2 Kings 17:23, “Until the LORD removed Israel out of his sight, as he had said by all his servants the prophets. So was Israel carried away out of their own land to Assyria unto this day.” The Lord also removes which is subtraction and one more look in Genesis 17:2, “And I will make

my covenant between me and thee, and will multiply thee exceedingly.” So we see how that basic math is in the Bible and God works things out through math. There is reasoning in math that God uses and tells us to also do. Isaiah 1:18, “Come now, and let us reason together, saith the LORD: though your sins be as scarlet, they shall be as white as snow; though they be red like crimson, they shall be as wool.” And in dealing with studying His words we are commanded to 2 Timothy 2:15, “Study to shew thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth.” RIGHTLY

DIVIDE.

So dealing with some math now we will see that the nature of math shows an intelligent design in creation and in the number system. Our number systems have unique and Biblical revelation built into it by God. There are no accidents in this

and no way to explain why these things are in our numerics. Dealing with the date of the death, burial and resurrection of the Lord Jesus Christ (DBR) in the year 35 AD we get this calculation:

Is there something unusual with this? The number 37 will show up in many of these numerics when they are examined in detail.

Year of DBR:	35	AD			
Church Age:	2000	Yrs	40 + (7 x 7 x 40)		
End of Age:	2035	AD			
	2	+	5	=	7
Concatenate:	3	&	7	as	37

The 37th Triangle has a value that is the inverse of the number 37 with a 0 in the middle. That is quite unique as 3 & 7 are God's most favored numbers. These unique numbers: 3, 7, 37 & 73 are all primes that have a connection in many ways. It is a wonderful and glorious thing to know that God wants to communicate with

us through His words and giving us this ability to reason and understand. God expects us to understand because He has giving us an understanding. 1 John 5:20, "And we know that the Son of God is come, and hath given us an understanding, that we may know him that is

true, and we are in him that is true, even in his Son Jesus Christ. This is the true God, and eternal life." We must have this understanding as knowing Him is the whole point of a relationship with our Creator.

The nature of God is so that God has a since of humor in things especially where man tries to circumnavigate around Him or His words. God holds man accountable for not trying to find Him. Then God not only hold everyone accountable but will laugh at you for not trying to find Him when you could have. The trouble is God has revealed Himself to YOU and you were too busy or too preoccupied with yourself to notice.

God has many funny things that show up in math and other sciences (real science not the fake stuff like evolution) and many of these can be seen all around us. Here is a mathematics enigma: there is only ONE single digit number that cannot be divided evenly into a circle.

Funny how π is a PIE backwards, one of God's jokes on the scientific community: Makes you wonder why they called this number PI?

There are many math funnies and odd things that seem to be a knock at the door of the heart of man who thinks he is all in all when God is actually all in all. It is funny to see how these things unfold when dealing with the hearts of sinful man.

A useful math is Digitary Math or DigiMath that allows adding the digits of a number to find the single digit numerics that holds significance in Biblical Numerology. In the case of certain numbers there is an obvious Biblical

					DigiMath:
Binary of 37:	00100101				3
Hex of 37:	25				7
Concatenation of DigiMath:					37

implication; however, this should not be an understanding by which anyone would use these numbers as any form of divination.

These numerics are so unusual that it appears that the Creator designed them into His creation to reveal Himself in His words where these numbers show up. The unusual arrangement of numbers in a matrix shows a certain pattern that all numbers share. These patterns are obvious and to ignore them is to ignore the creativeness of the Creator.

7 X 7	Matrix Starting with	7	is	217	μ
2	+	1	=	3	& 7
Concatenate:		3	&	7	as 37

1	+	2	=	3	&
2	+	5	=	7	
Concatenate:		3	&	7	as 37

There is no other explanation of the reason for these things to show up in math or in the number system.

They just DO! They show up in many strange ways. One of the most unique of these is the triple repeditive digits (trip-rip-dit). As shown above they all have a factor of 37. Which makes 37 a very unique number.

There are other forms of numerics such as binary and hexadecimal (hex) and there is equivalence between these number systems. The first tri-rep-dit is 111 and has these forms. It is the start of a unique pattern that shows up in the patterns of 37.

The Binary of	7	=	111	
The value of the 6 x 6	μ	=	111	
&	3	x	37	= 111
11	x	10	+	1 = 111

I have studied these numbers many years now and have added to the information and over time will add new studies about the number as the Lord reveals them. The

levels of revelation that are coming from believing God’s words are enormous these days. It is so wonderful to know that the Lord is this personal to me and to you if you also want to enjoy these blessings. I am not sure where the next step will be as the Lord leads through these things and unfolds in these last days His express will for the Born Again Bible Believer.

Here is the 7 x 7 Matrix starting with 1 and incrementing by 1. What is awesome to see with these is the numerics when changing the start number and / or the incrementation number. This in the spreadsheet version is a dynamic matrix where I have calculation so that these numbers change when the start and incrementation are changed.

These arrangements suggest a universal paradox in numbers that shows beyond any doubt an intelligent creation and therefore an intelligent Creator else these things

would be random and not patterned. This construct also shows the uniqueness of certain numbers in our number system and why God chose to use certain numbers. One example is the number 7 which shows up in the Bible over and over again.

The Sabbath for example is a seventh day, seventh week, seventh week of weeks, seventh month, seventh month of months, seventh year, seventh year of years & seventh thousandth years. All in all there are seven sevens of these events and where there are seven sevens that constitutes a 49th with one more making it 50 which is a Jubilee. The pattern of the 7 x 7 matrix is a 49th construct regardless of what numbers are in the 49 squares and regardless of the outcome of their summation. The universal construct and the outcome will always be the same making a universal constant just as true as 1 + 1 = 2. Facts are hard things to disprove and facts lead to provable scientific irrefutable

evidence to the facts. That is why math in its basic forms are real science. These matrices are given to show God's handiwork in His creation as is the sun rising up in the morning and setting in the evening.

These numerics show that the reality of our known universe is displayed to show us how insignificant we are in the vastness of the cosmos and yet when taken in consideration of the words in the Bible we see our significance with the Lord is more than what we have considered our value. A soul is more valuable than gold or silver and God

places the price very high so high that no one could purchase his own soul from sin, death or hell. It is not priceless as it has been paid for by the precious blood of Christ.

These matrices are being altered to show that in the math of these constructs reside the building blocks of God's favorite numbers 3 & 7. Here the starting number has been changed to 7. Notice the matrix (μ) has also changed universally to 217. As seen above $2 + 1 = 3$ and concatenating 3 & 7 gives the 37.

It seems like this 37 shows up in many places and for more details on this number please see my study 37th.

The next augmented matrix goes a step further in showing another

pattern adjustment when changing the incrementation number. A secondary incrementation can be added as well after the seventh number where the stepping from the knight's move augments. However we will not be dealing with this in this study as it gets too deep for most people to deal with. Usually this is already way too deep for the novice to deal with and I usually get some kind of sarcastic remark about these numerics because of a lack of understanding or ability to grasp simple

math. People are for the most part lazy when it comes to putting on their thinking caps.

Here the alteration is that I have retained the starting number of 7 and then also increased each squares incrementation by 7. Notice again the matrix (μ) has also changed universally to 1225. $1 + 2 = 3$ and $2 + 5 = 7$ concatenating 3 & 7 gives the 37. Notice that this is a 7 x 7 starting with 7 and incrementing by 7.

This is one of many enigmatic examples of this phenomenon I have found in studying numbers that not only shows a divine relationship in numerics but shows that numbers have special and divine relationship to why God chose certain numbers in the construct of the Bible.

A simplified version of the matrices if you are interested in pursuing this study is to start with the 3 x 3 and understand the math behind it.

3 X 3 Matrix				
	1	2	3	
				15
1	8	1	6	15
2	3	5	7	15
3	4	9	2	15
	15	15	15	15

This will give you the basic understanding of the idea behind these constructs and how the math works. Every one of these matrices is a number by that same number and the smallest of these is 3. The construct is arranged in a pattern whereby the rows, columns and at least both major diagonals

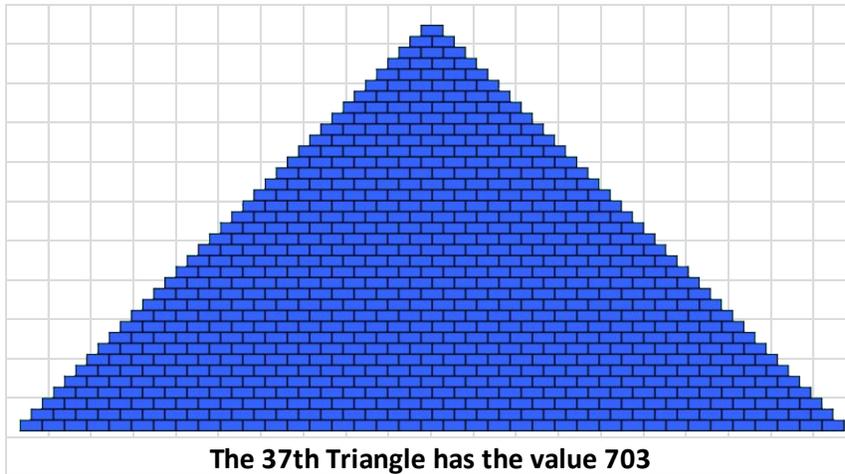

are equal to the same number. That number is the matrix (μ) number of the construct and a mathematic constant.

By changing the starting and incrementing numbers in the construct the matrix (μ) number also much change universally showing that the constant is still in place in a dynamic place holder as the construct is not been altered only the values have been changed. Here I have started with 3 and incremented by 3 making the new matrix (μ) number 45. Because of the universal alteration we have demonstrated that numbers are NOT randomized in their design but ordered by intelligent design.

The importance of this is enormous because it is irrefutable evidence that our universe was created and not a quirk of nature or a happenstance or accident. This shows that there is design and patterns of these designs whereby all things were created by intelligence and personable intelligence far superior to our own.

3 X 3 Matrix				
	1	2	3	Σ
1	24	3	18	45
2	9	15	21	45
3	12	27	6	45
	45	45	45	Σ

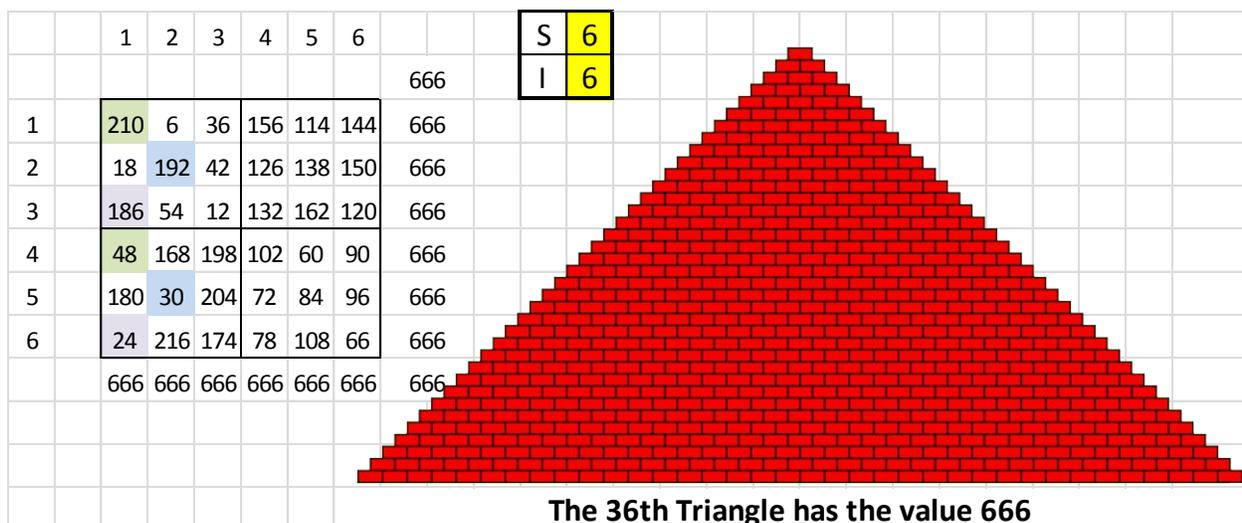

There is no mistaking this and inevitably the conclusion will be that the Lord God Almighty created it all for His pleasure. He created all things by the Word of God who is the Lord Jesus Christ. This will be shown to you now or later. If later it just may be too late for you to escape the

truth.

As we have seen already that the numbers arrange a pattern and these patterns show that the Bible is true and that there is a true God and eternal life if you would only look at the Bible

for understanding these things. Perhaps it is too much to grasp for you if you are college educated. They take great strides in making their students professing Agnostics. That would be a non-knower or a stupid idiot. You go to college and the professors' work on the student to produce morons!

Here is another matrix of the 6 x 6 showing it starting with 6 and incrementing by 6. Notice that the matrix (μ) number is 666. Now I ask you: Is that a coincidence? Not likely. It is a fact plain and simple. It is a mathematic constant that this will come out this way regardless of the functionality positions of the number to make the matrix equal you will come out normally with 111 and when altering the start and increment you will always get 666. But that is not the only remarkable theme about 6. 6 x 6 is 36 and the 36th Triangle has the value 666. It is an obvious implication of three sixes where 3 x 6 = 18 and in Revelation 13:18 you have the very number 666.

The simple fact is that 37 is the base of all the trip-rip-dit numbers making 37 the center of the

1	2	3	4	5	6	7	8	9

universe number of all space – time – mater relationships and that is why God uses the numbers in 37 in the Bible so often. 3 and 7 are God’s most used numbers because that the number 37 is supreme in God’s math.

The numbers can lie and by using math you can teach a lie. Here is the down side of mathematics and especially higher math which is more abstract math. The higher the math the easier it can be used to lie or deceive others. The more complex in nature anything is, the more combined multiplex divergence there is and therefore the ability to hide from the plane understanding those lies; in an example: it is easier to hide in a forest than behind one tree. That may be a simplified view of this but it gives the reader the bases of all types of deception. The accomplishing of any subtil deception has within it one or more of these things:

1. Complexity (a misleading simplicity)
2. Distraction (a diversionary tactic)
3. Concealing (hiding the truth)
4. Misdirection (a diversionary tactic)
5. Sublimation (a diversionary tactic)
6. Subterfuge (a diversionary tactic)
7. Demonic Subjugation (supernaturally)

In math the first tactic is to make something complex seem simple or vice versa. In either way the tactic can be used to teach a lie. The above seven tactics are used by

magicians to deceive people. Deception is the trade of the magician; however, most of the high level magicians move from the first six to the seventh and enter an higher level of deception; however at that level they are the ones that have been deceived into believing they have any power at all to control the forces behind the devils.

In math and all the scientific endeavors there is also this subtle tactic to go to the higher levels of Demonic Subjugation to get the power over all others or above all others under the guise of self-exaltation. There are no exceptions to this in this sin cursed world of which the Devil is the god of this world. The only escape from this is to receive the Lord Jesus Christ as your personal saviour.

In dealing with math; the simple math of adding, subtracting, multiplying, dividing, powers, roots, have obvious absolute rules, implicit, and matter of fact. Once you enter the area of algebraic expressions you must understand these by place holders for a value that can be static or dynamic. This is where a lie can be hidden or a deception can be worked into the construct of the analytical logarithm by means of abstraction. Abstract math is not real math; there are many assumptions taken with abstract math.

1. The eternity of matter
2. The heliocentric universe
3. Light speed is a universal constant
4. The beginnings were millions or billions of years ago
5. There is no God
6. Science can solve all problems
7. Evolution is true

Yet none of these things can be proven true by any science. However, if you do not believe these things as true; you are expunged from the scientific community as an idiot, fraud, insane, unscientific, or some other separating euphemism.

The Bible has a lot of real math in it. There is not any abstract math in the Bible. I do not discount the low-end algebraic math; where the laws of actual math still apply.

Example 1: if $a = 1$ and if $b = 2$ and if $c = 7$ then: $a + b + c = d$. What is d ? 10.

Example 2: if $a = 0$ and if $b = 3$ and if $c = 7$ and if $d = 0$ then

Cycle until: $d \geq 10$; $a = a + 1$, $d = a + b$, cycle

(How many times did the above cycle? What does a = ? b = ? c = ? d = ?

a = 0	1	2	3	4	5	6	7
b = 3	3	3	3	3	3	3	3
c = 7	7	7	7	7	7	7	7
d = 0	4	5	6	7	8	9	10
Cycle = 1	2	3	4	5	6	7	end

Cycle = 7, a = 7, b = 3, c = 7, d = 10.

This may seem like abstract math; but it is not abstract. Abstract math is where there is no logical deduced answer or you end with a variable that is unanswered or the construct of the equation is such that no variable is given with any absolute value. One such example is $E=mc^2$.

This construct assumes that the constant is light speed and that light speed is constant. This assumes you can square this speed then multiply it to the mass of an object and then that is equal to energy! Perhaps this is not accurate; but it sounds good huh? This is total fabricated non-science! This is an assumed principle based on assumed ideas. There is not one provable science in it. No scientist has ever proven this because it is impossible to prove. The fastest known thing is light speed but assuming that light speed is a constant is ridiculous. If it is the fastest known thing how do you multiply it by itself to square it? Preposterous!

If you could make mater go at the speed of light how would you make it go twice that speed or that speed squared even. The lack of science in this is astounding yet the scientific communities take to this like ice cream and cookies. This is on the same levels of moral depravity as evolution and heliocentricity. The lack of proof of these things goes beyond ignorant.

Someone is deliberately keeping others in the dark about true math and true science. You cannot divorce science from the Bible or from God; and to do so is to create your own form of science that is totally false. This is what mankind has done.

As we have seen from all the above there is more math and science in the Bible than what most so called scientist want to admit. But because they have rejected the true science found in the Bible, God holds them in contempt and calls them fools, ever learning and not about to come to the knowledge of the truth. It is

amazing to me to see these people argue their pitiful points without knowledge of the truth.

Romans 1:20, “For the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made, even his eternal power and Godhead; so that they are without excuse:”

Perhaps they need to stop their so called scientific research and spend some time reading the Bible. God told you that the invisible things of HIM from the CREATION of the world are CLEARLY SEEN, being understood by the things that are MADE, even HIS ETERNAL POWER and GODHEAD... But no, they reject the idea of God, and they poke fun at creation; and remain in their black holes and dark matter: Romans 1:21-22, “Because that, when they knew God, they glorified him not as God, neither were thankful; but became vain in their imaginations, and their foolish heart was darkened. Professing themselves to be wise, they became fools,” Their darkness is such that they crave because they want to hide in the darkness...

John 3:17-21, “For God sent not his Son into the world to condemn the world; but that the world through him might be saved. He that believeth on him is not condemned: but he that believeth not is condemned already, because he hath not believed in the name of the only begotten Son of God. And this is the condemnation, that light is come into the world, and men loved darkness rather than light, because their deeds were evil. For every one that doeth evil hateth the light, neither cometh to the light, lest his deeds should be reprov'd. But he that doeth truth cometh to the light, that his deeds may be made manifest, that they are wrought in God.”

These so called scientists are colliding light particles together thinking they are actually going to see what happened at the beginning; but they are just wasting their time. Jeremiah 13:16, “Give glory to the LORD your God, before he cause darkness, and before your feet stumble upon the dark mountains, and, while ye look for light, he turn it into the shadow of death, and make it gross darkness.” They will not give glory to the Lord God Almighty; their lights are out and they are home but they can't find anything.

The End
