

# The Mathematics of 1 John 5:7-8

By: David A. Sargent

Math is one of my favorite subjects even though I cannot do math in my head without pencil and paper or with a calculator or what I like to use the most a spreadsheet. I like messing with numbers because of the structural, precision and absolute nature of mathematics. However what I am talking about is NOT abstract math or quantum mathematics which deals in theories. I am talking about  $1 + 2 = 3$  and  $2 + 2 = 2 \times 2$ . Math in its basic form will never render  $1 + 1 = 4$ . It will never tell you  $2 \times 5 = 230$ . This form of math I am dealing here has a structural nature in that what is on both sides of the equal ( $=$ ) sign should be the same. This form of math has precision in that there are no varying degrees of what is true. And this form of math is absolute in its nature being  $1 + 2$  will ALWAYS be 3 even backwards:  $2 + 1 = 3$ . However, that being said; we are going to be talking about the Creator of mathematics and how that this Godhead is OUTSIDE of His creation when it comes to space & time; matter & energy; and mathematics.

Here we see two passages where 3 are 1 and where 3 agree IN one. Both statements can be expressed in math in the improper equations as  $3 = 1$ . Improper, you say? Yes as far as math goes the balance in any equation rests on the equals ( $=$ ). However we see here that in the Bible God is outside of His creation and produces this enigma of truth and a great mystery in the Bible. Some mysteries are not called mysteries; but they are mysteries nevertheless.

The Mathematics of 1 John 5:7-8				
1 John 5:7, "For there are three that bear record in heaven, the Father, the Word, and the Holy Ghost: and these three are one."				
1 John 5:8, "And there are three that bear witness in earth, the Spirit, and the water, and the blood: and these three agree in one."				

This is why the modern bibles perverted this passage; because they could not understand it and used an inferior text to alter what God had said. This is also the touchstone passage for the Trinity or Trinitarian Godhead which is also throughout the Bible in other places. However, this is the ONE place where we see  $3 = 1$ .

We also see that God has ONE Spirit; and yet God has SEVEN Spirits. So how can  $1 = 7$  you ask? Simple: the same way  $3 = 1$ !

<b>The Mathematics of 1 John 5:7</b>				
3	÷	3	=	1
3	×	1/3	=	1
3	-	2	=	1
3	+	-2	=	1
if:	3	=	1	
then:	1	=	3	
and if:	1	then:		
	1	3	≠	1
+	1	However:		
	3	3	=	1

Starting out with 3 and dividing by 3 we get 1. But if we want to start with 3 and multiply to get 1 we must multiply by  $\frac{1}{3}$ . And if you want to subtract from 3 you must subtract 2 to get 1. And if you want to add to 3 to get 1 you must add a negative 2. So the math is within our grasp; but these do not show  $3 = 1$ . The trouble with this is that God is NOT His own creation. Pantheism teaches the eternity of matter and God is everything so

everything as always been here. You are therefore your own God! This is not what the Bible says at all. The fact that  $3 = 1$  has no bearing on math because you cannot multiply God and God has never multiplied Himself. So we cannot get this  $3 = 1$  by multiplying  $1 \times 1 \times 1 = 1$  because this is still not  $3 = 1$ . For a multiplication of this we would have to say  $1 \times 1 \times 1 = 3$ . But then what is that saying?

The rule of multiplying by one is simple: any number multiplied by one is that same original number. So if you multiply  $1 \times 345$  you will get 345. See how simple that is? So if you multiply 1 by itself; you get itself no matter how many times you do this it is still 1. If you multiply  $7 \times 1$  you get 7. If you multiply  $7 \times 1 \times 1 \times 1 \times 1$  you still get 7! SO, the Biblical statement  $3 = 1$  is NOT resolved by multiplication. It is reinforced as an impossibility. We are still stuck with the conundrum of  $3 = 1$ .

<b>Rules of Multiplying One</b>				
1	×	<i>n</i>	=	<i>n</i>
if:	<i>n</i>	=	1	then:
1	×	1	=	1
therefore:		and		
	1		1	
	1		1	
×	1		1	
	1		1	
			1	
	1		1	
×	7		1	
	7	×	1	
			1	

The trouble is the 3 to get this understand what I have already said: if  $1 + 2 = 3$ ; then  $2 + 1$  MUST ALSO = 3. So, if  $3 = 1$  then 1 must also = 3. So, the trouble is that 3 thing. To get to the number 3

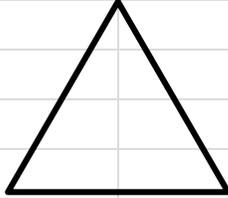

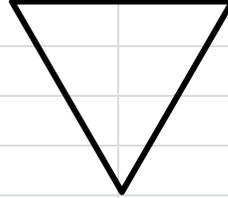

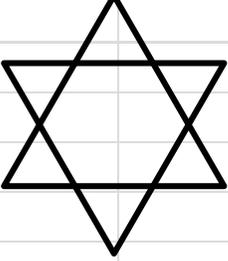

you must start with 1 then 2 and then 3. So we see that 3 is made up of  $1 + 1 + 1$ . So that these math statements are true:  $1 + 1 + 1 = 1 + 2$ ; and  $1 + 1 + 1 = 2 + 1$ . But this still does not give us the understanding of  $3 = 1$ . It is a step towards our goal here because revelation is progressive.

so that:				
1	=	1	×	1
and therefore:				
	1		1	
	1		1	
+	1	×	1	
	3	=	1	

So the multiply doesn't work and adding does not work and you cannot even join them together so that they work because the only relationship where you multiply a number by itself and get a new number and doing the same things adding to come to that

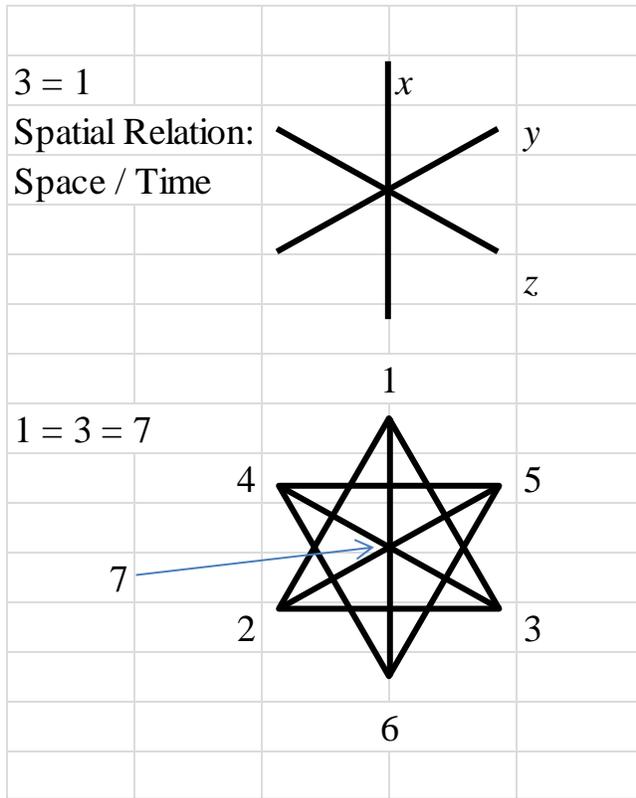

same new number is  $2 + 2 = 4$  and  $2 \times 2 = 4$ . But this doesn't help our dilemma in the passage. The trouble is this equation can be represented in a form of the math of Geometry.

What we see in Geometry is more obvious because in a triangle we see a 3 that is a 1; both in the points and in the sides. So we see in 1 John 5:7 a  $3 = 1$  in heaven; so the triangle is pointing UP; and in verse 8 the  $3 = 1$  is in Earth so that triangle is pointing DOWN. This is an obvious equation that are the same and also different at the same time; and so we have another added dimension to this. The element of location; but they are joined together they are what many call the Star of David. It is a Jewish thing and so Gentiles seem to have trouble with this and a hex in the occult which has a circle around it or more than one circle around it: 

The Geometry of 1 John 5:7-8				
1 John 5:7				
1 John 5:8				
1 John 5:7-8				

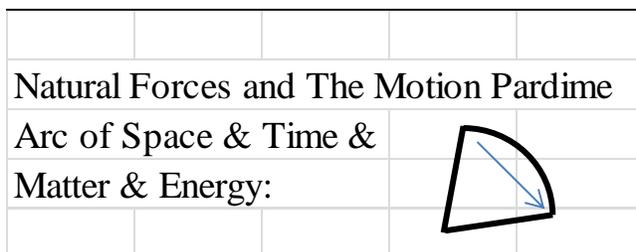

The star without the circle is then sectioned using the  $x, y, z$  graph for spatial relationships and the space-time continuum. These three are one; that is there are three directional lines from a point and the movement inside our three dimensional

environment is either up and down or side to side or front to back. So we see here that there are seven in number when the center starting point is included.

Then these are set inside the star so that the points and lines line up. This creates the representation of  $1 = 3 = 7$ . This is an understanding of the seven Spirits of God found in four places in Revelation 1:4; 3:1; 4:5 and 5:6. Notice that the word Spirits is capitalized the same as Holy Spirit. So once we realize that God's nature goes from 1 to 3 to 7 and when we see this in the points in the centered hexagram where there is a center point then we have an obvious resolution to  $3=1$ . There is a math behind the seemingly unreal equation that shows the Godhead is not outside of our understanding completely. However

God is by His nature far above us in every way. So just because we understand that God is 3 in 1 and 1 in 3; and just because mankind is made of a body, soul & spirit; does not mean that we are the same as God. On the contrary: we cannot split ourselves into 3 separate persons like the Godhead did. Each of the three persons of the Godhead is manifestly the  $3 = 1$ . But men are NOT. Mankind has three parts that are distinct, separate and are not in and of themselves the same tripartite nature as the whole. In other words: the soul is not the body, soul and spirit; the spirit is not the body, soul and spirit and neither is the body the body, soul and spirit. They are different, separate and unique. The soul and the spirit are linked together with the body; but they are not the body. God's nature is that they are totally separate and together at the same time. By this nature God is self-sustaining and eternal.

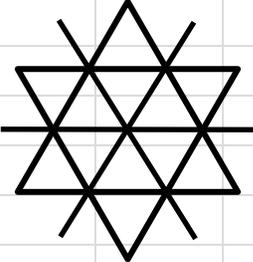

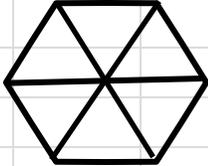

The natural forces of all things take their power from their creative design. This comes from the arc of God which is a light or spark. This is the motion whereby God spoke things into existence and that light is truth. This

arc produced all things including life. The Word is designated in this triad in 1 John 5:7 instead of the Trinitarian “Son” but we know this is the same person because of John 1:14. Where the Bible tells us that “...the Word became flesh...”

This brings up a whole new thing about the Word. When we understand that God is a Spirit and that God was in Christ reconciling the world to himself. We see that what was made flesh was also the start of a Soul and a Mind that is very difficult to explain. Each part of man: body, soul & spirit have a mind. This is true in Jesus Christ as well. Notice that in verse 8 we have this triad of “...the Spirit, and the water, and the blood...” This is the witness in earth. Who would that be? Isn’t it obvious: the double triadic would be the Lord Jesus Christ being both God and man. It is important to see that this Spirit is the Holy Spirit; and the blood is God’s

blood. Some people think that this water is water baptism. However I would like to point out that the word baptism or any form of it does not show up here.

So is this a reference to John 3? Born of water; Or perhaps a reference to Christ’s death when the soldier pierced Christ’s side and water and blood came out from his heart; Or perhaps Both. The issue is that this is a witness in the earth.

<b>The Creative Paradigm</b>			
Matter / Energy			
7 Points			
			
<b>Theosynthesis of Genesis 1:1</b>			
<b>Divine Intelligent Creation</b>			

The fact is that it was by the Lord Jesus Christ that God created all things and they were created by him and for him. So we see that this creative nature shows up in creation in that all things have this nature built into them that shows a center point hexagon pattern. What is important is that this shows the equation in all things  $1 = 3 = 7$ .

The theosynthesis of Genesis 1 shows the creator at work bringing things into existence from nothing by the Word of His power. To ignore Divine Creative Intelligence is to be unscientific in your science. To justify a ridiculous notion that everything started with randomness and became ordered is unscientific. The evidence shows that things are in an order and degenerated to randomness. This can be shown many ways in experiential science. The preposterous buffoonery of evolution is science falsely so called; as it cannot be proven, demonstrated, and is

not experiential in any way, shape or form. It therefore can be concluded a false science. The myriad of systems in the human body alone that cannot function by themselves, as they interact with each other in billions of cells and neurological processes shows this very thing.

The Godhead shows how God made things that are 1; and produced them with the unseen things that are 3 in producing that one.  $1 = 3 = 7$  and thereby reveal to man the true nature of the Godhead.

It is true we cannot know all there is about the Godhead; nevertheless the nature about the Godhead in part can be known and as far as 1 John 5:7-8 the numbers that show up here actually do show that God is a Trinity and a Sepity:

1. Unity
2. Duality
3. Trinity
4. Quadity
5. Quinity
6. Sexity
7. Sepity
8. Octity
9. Nonity

The Godhead is a divided unity: the number for division is 2 and the number for unity is 1. So  $2 + 1 = 3$ ; and division + unity = divinity. It is no accident that the numbers would line up to show some part of the Godhead. In fact there is a whole like of numerics that reveal these things. What is important is that this vindicates the Triune Godhead and that these three are one.

The End  
THE END
